SUMMARY

Top Graduate in Software Engineering from SMK N 5 Kendal, dedicated to Web Development and Creative Audio-Visual. Experienced in leading team projects (Full-stack Laravel), implementing IoT solutions, and producing creative content through broadcasting. Ready to leverage technical skills and creativity to drive positive growth for the company.

EDUCATION

SMK Negeri 5 Kendal — Software Engineering | 2023 – 2026

Top Graduate in Software Engineering (2025/2026) and active in the Broadcasting team.

FEATURED PROJECTS

Automated Parking System | School Team Project · Arduino

Built an Arduino-based system that detects vehicle entry/exit and sends automated alerts when the parking lot is full.

JavaShop — Coffee E-Commerce Platform | School Team Project · Laravel

Developed a full-stack coffee e-commerce website using Laravel. Served as Team Lead.

Student Council Election Website | Individual Freelance Project · Cloudflare

Designed a web-based Student Council voting system with real-time counting (± 10 votes/minute).

RPL 1 Class Website — SMK Negeri 5 Kendal | Independent Team Project · Firebase

Developed a multi-page website featuring real-time chat. Role: Full-stack Developer (Firebase integration & deployment).

EXPERIENCE

Freelance Editing & Design | 2025 – Present

Produced and edited over 10 interactive Music Video (MV) projects for musical Virtual YouTubers (VTubers) with a focus on audio-visual precision.

Internship at KIDI Telkom Indonesia (Regional 4 Semarang) | Dec 2025 – Apr 2026

Completed a web development internship (PKL) focusing on the Laravel framework.

Freelance Programmer | 2026 – Present

Developed custom software solutions (Web/Mobile Apps, Google Apps Script automation, and IoT integration) tailored to client business efficiency.
